OFFICE OF PETITIONS

In re Application of	:
Winter et al.	:
Application No. 08/332,046	: DECISION ON PETITION
Filed: November 1, 1994	: UNDER 37 CFR 1.182
Attorney Docket No. 620-3	:

This is a decision on the petition under 37 CFR 1.182, filed April 24, 2008 , requesting entry of an amendment to the specification to insert a reference to an earlier-filed application pursuant to the provisions of 35 U.S.C. § 120 for the benefit of priority to the prior-filed nonprovisional application set forth in the amendment filed with the petition.

The petition is **GRANTED**.

The above-noted abandoned application failed to make a specific reference to the prior-filed application; namely, PCT/GB89/01344, filed November 13, 1989, prior to abandonment. Petitioner now requests that the abandoned application be amended by inserting a reference to the earlier-filed application. The petition is accompanied by an amendment to include a reference to the prior-filed application in the first line of the specification following the title of the invention.

35 U.S.C. § 120 permits entry of a subsequent amendment to an abandoned application in applications filed prior to November 29, 2000 to include the benefit of an earlier filing date for purposes other than prosecution. See Sampson v. Commissioner of Patents and Trademarks, 195 USPQ 136 (DC DC 1976). A petition under 37 CFR 1.78(a)(3), however, is required if the later-filed application is a utility or patent application filed on or after November 29, 2000. If the later-filed application is a utility or plant application filed before November 29, 2000, a petition under 37 CFR 1.182 is required.

Applicant has filed a petition under 37 CFR 1.182, an amendment to insert the reference, and paid the petition fee. The instant application claims benefit of the PCT application by way of intermediate application Nos. 07/796,805 and 07/580,374. The instant application is a file-

wrapper-continuation of application No. 07/796,805. By decision mailed March 30, 2009, the Office amended application No. 07/580,374 to be a continuation of PCT/GB89/01344.

In view thereof, the request for entry of an amendment to insert a reference to the above-noted, earlier-filed application is granted.

A corrected Filing Receipt, which includes the priority claim to the prior-filed nonprovisional application, accompanies this decision on petition.

Any inquiries concerning this decision may be directed to Senior Petitions Attorney, Nancy Johnson at (571) 272-3219.

This application is being forwarded to Technology Center Art Unit 1636 for entry of the amendment filed April 24, 2008.

A handwritten signature in black ink, appearing to read "Nancy Johnson", with a stylized, flowing script.

Nancy Johnson
Senior Petitions Attorney

Receipt is acknowledged of this non-provisional patent application. The application will be taken up for examination in due course. Applicant will be notified as to the results of the examination. Any correspondence concerning the application must include the following identification information: the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. **If an error is noted on this Filing Receipt, please submit a written request for a Filing Receipt Correction. Please provide a copy of this Filing Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filing Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filing Receipt incorporating the requested corrections**

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
